Reporting
Stock Summary Report

The new Stock Summary Report, printable from the Lottery Terminal, provides information on Activation Tickets allowing you to easily track your inventory at any given time.

Key Points about the Stock Summary Report

- Excludes Traditional Tickets and Web Cash.

- Reports on non-activated Activation Tickets.

- Inventory is listed by Game Name and Number. With each printout, the order in which Tickets display is random due to constantly moving inventory.

- The variation number for base games will be displayed in the Game name.

- Book # does not include the preceding zeros printed on the Pack itself

- The number of Tickets remaining in a pack is listed under Quantity

- The first Tickets to populate the Stock Summary Report will be the three new release Tickets starting on June 3.

  - The number of Tickets will increase with each month of new release tickets. New releases will be Activation Tickets.

- Ensure a full roll of paper in the printer before printing.
