

RSG PAYMENT CARD TERMINAL PROCEDURES

PCI Compliance

During the busy holiday season, it's important to follow RSG Payment Card Terminal Procedures to support the security of card data and to protect players, RSG Lottery Retailers and BCLC from fraudulent activity.

Remember to...

Lock It	Restrict It	Inspect It	Report It
 <p>Lock up the payment card terminal overnight</p>	 <p>Restrict access from players when not in use</p>	 <p>Check cables and slots for foreign attachments or tampering</p>	 <p>Report any suspected or actual fraud activity.</p>

And, always ...

Verify the identity of third party repair or maintenance persons prior to granting them access to your kiosk, lottery equipment and to the payment terminal. BCLC will provide notification for payment terminal upgrades; and repairs can only be initiated by RSG Lottery Retailers.

Contact your **Territory Manager** or **Lottery Hotline: 1-800-667-1649**
