GOLD BALL DRAW

The Gold Ball prize is determined in its own special draw

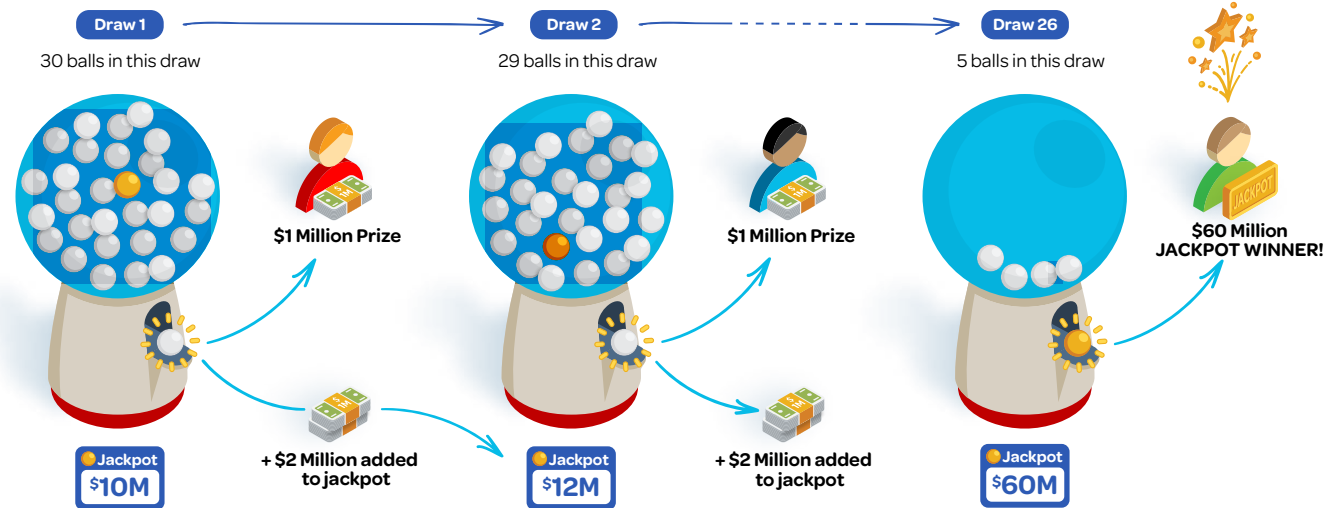

We start with 30 balls:

- 29 White Balls
Prize: \$1 Million each
- 1 Gold Ball
Prize: Jackpot starting at \$10 Million

If a white ball is drawn, a \$1 Million prize is won....

...and the jackpot grows by \$2 Million for the next draw!

It keeps growing until the Gold Ball is drawn and the jackpot is won!

There's a guaranteed winner every draw and the prize is never shared!

Questions & Answers

Why is Lotto 6/49 changing?

Players told us Lotto 6/49 could use a refresh and a little extra excitement. So, we're launching a new Lotto 6/49 that will now offer two multi-million-dollar jackpots each draw, with larger jackpot prizes than the current game offers.

Do you still play the game the same way?

Yes! Lotto 6/49 is still \$3 per play with draws on Wednesday and Saturday and overall odds of 1 in 6.6. Players can still pick their 6 of 49 numbers using a selection slip or play Quick Pick. The second draw—now called the Gold Ball Draw—still has a guaranteed winner every draw.

Have the odds changed?

The odds of winning a prize for the Classic Lotto 6/49 draw are still the same: 1 in 13,983,816.

The odds of winning the Gold Ball Draw are variable depending on the number of plays issued for that draw, as well as the number of white balls plus the Gold Ball remaining in play.

Is the \$5 Million Classic jackpot guaranteed to be won on every draw?

No, the \$5 Million jackpot will be won in the same way as before and is awarded to, or shared by, any selection(s) that match all six main numbers drawn.

What will the Gold Ball Jackpot be for the first draw after the changes?

The growing Gold Ball Jackpot will be \$10 Million on the September 14, 2022 draw. The top prize for the Classic Lotto 6/49 draw will always be \$5 Million.

What's the highest the Gold Ball jackpot can grow to?

The maximum prize that could be won on the Gold Ball draw is \$68 Million. This would mean that the only ball remaining for that draw is the Gold Ball.

Can a player win on both the Classic Lotto 6/49 and the Gold Ball draws?

Yes. It is possible for a player to win in both the Classic and the Gold Ball draw. They are two separate draws each with their own winning selections.

Why can't players choose their own Gold Ball Number(s)?

Every selection must be unique in order to ensure there is only one winning selection for the Gold Ball Draw. If players were able to choose their own selections, there would always be the possibility that two players could have the same winning Gold Ball Draw Number, and therefore have to split the prize.

Can two tickets share the Gold Ball draw prize?

As the Gold Ball Draw numbers are unique, two tickets will not share the same number. The winning Gold Ball Draw Numbers will only match one 10-digit selection and either win a Guaranteed \$1 Million prize or the Gold Ball Jackpot.

Do I get a different Gold Ball Draw Number for each draw included in an advance buy purchase?

No, with an Advance Buy purchase you get the same Gold Ball Draw Number entered into each draw. As each draw is an independent, random draw, it does not affect your odds of winning the Gold Ball prize.

What will happen to the jackpot funds from the draw on Saturday, September 10, 2022 if the jackpot is not won?

The jackpot on the Saturday, September 10, 2022 draw will not carry over to the Wednesday, September 14 draw. If the six of 49 prize is not won, the jackpot funds will be rolled down into the next prize categories for that draw.

What happens to free plays won on the last draw?

Any free plays from draws prior to the game change but redeemed after the final draw of the current format (September 10, 2022) will be redeemed for \$3, the cash value of the free play.

Is BC/49 changing too?

No, BC/49 is not changing. Draws will still take place every Wednesday and Saturday, for \$1 per play and a top prize of \$2 Million.
