\$100 LOTTO MAX PACK – DAILY GRAND Incorrectly Updated

Important!

When updating the number of draws for a Quick Pick package with a bonus game, ensure that the number of draws for all tickets in the package are updated by the same number of draws.

In this example, LOTTO MAX number of draws is changed to two (2), and DAILY GRAND is not updated by the same number of draws.

The **Processed Cost** will display the correct cost.

However, the Player will only receive two (2) bonus DAILY GRAND plays, instead of the four (4) plays they should receive for two (2) LOTTO MAX PACKS.

- **LOTTO MAX = Two (2) draws**
- **DAILY GRAND = One (1) draw**

- **DAILY GRAND** displays a \$6.00 discount as only one (1) draw was selected.
- Net discounted cost will be \$0.00.
- Only one (1) DAILY GRAND play will print on the ticket.
- The **Processed Cost** will display the correct cost for both draws.

Adding Multiple Draws to Quick Pick Packages with a Bonus Game.

Questions & Answers

Is there another way to add multiple draws or months to Quick Pick Packages with a bonus game?

Yes. Process separate transactions to purchase the number of draws or months the Player would like to purchase.

Do I need to update every game separately for multiple draws?

Yes. Apply the same draw multiplier to each game in the Quick Pick package. This ensures the player is charged the correct package price and receives the correct number of plays, draws, and tickets.

When will I see the bonus game discount?

You'll see the bonus game discount after you tap **Checkout**.

Does a correct Processed Cost guarantee the correct bonus game plays or draws?

No. The **Processed Cost** can be correct even when the bonus game plays or draws are incorrect. Always apply the same draw multiplier to every game, including the bonus game.

What should I check in the Cart before tapping Checkout?

Check that the cost of each game matches the number of plays or draws included in your package. Don't rely on the **Processed Cost** alone.

What should I do if I notice a mistake before Checkout or after tickets print?

If you notice a mistake before tapping **Checkout**, tap **Empty Cart** and begin a new transaction.

If you notice a mistake after printing the tickets, follow the ticket cancellation process. For details, please visit the BCLC Retailer Hub, [Cancelling Online Tickets](#).
