Can Multiple Draws be sold?

Yes. Multiple draws can be sold for each BC Pack.

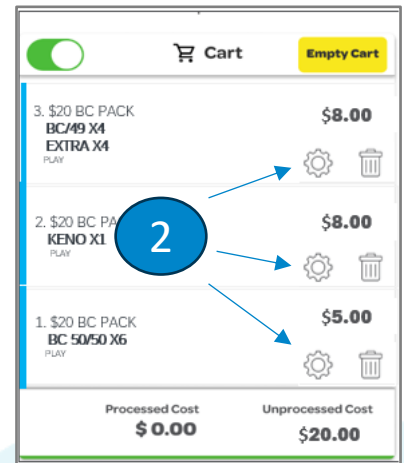

Note that for the \$20 BC Pack discount to apply, the same multiplier must be used for each game. In the example below, one additional draw is being added.

1. Select the \$20 BC Pack to add it to the cart:

- BC 50/50 game - 1 draw
- Keno game - 4 draw
- BC 49 game - 1 draw

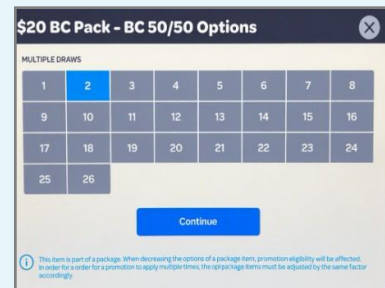

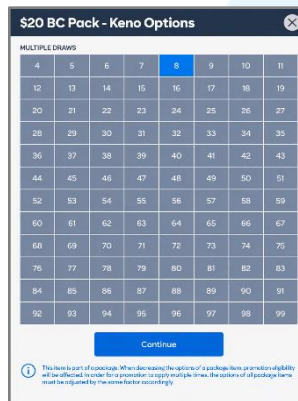

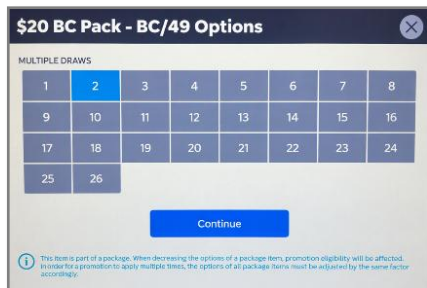

2. Click on the Gear button for each line item to select the additional draws.

3. To add 1 additional draw, in each Game Option screen select the correct number of draws:

- BC/49 - select 2 draws
- Keno - select 8 draws
- BC 50/50- select 2 draws

Questions & Answers

Q: Why do three tickets print for one BC Pack purchase?

A: The BC Pack includes multiple games. Tickets print separately by game, so three tickets will be produced for both the \$5 BC Pack and the \$20 BC Pack.

Q: Can I sell multiple draws on both BC Packs?

A: Yes. Multiple draws can be added to both the \$5 BC Pack and the \$20 BC Pack. For the \$20 BC Pack discount to apply properly, the same multiplier must be used for each game.

Q: Why didn't my customer's \$20 BC Pack price calculate correctly when adding more draws?

A: For the promotional pricing to apply correctly, the same draw multiplier must be selected for each game in the pack. If the draw selections do not match the pack structure, the discount may not be applied as expected.

Q: Why doesn't the discount appear immediately in the cart?

A: When selling the \$20 BC Pack with additional draws, the cart will first update to reflect the added play. The promotional price is applied during processing and will be reflected after Checkout is selected, provided the correct draw multiples have been chosen.

Q: How will the \$20 BC Pack discount appear?

A: The \$20 price is achieved through two discounts: a \$1 discount on BC50/50 Pick 6 for \$5 and a \$1 discount on BC/49. Together, these discounts reduce the package price to \$20.

Questions & Answers

Q: Which draws will the BC 50/50 and Keno tickets be valid for?

A: The BC 50/50 and Keno tickets will be valid for the next available draw after payment is received and the tickets are printed.

Q: Why was Pick 7 selected for Keno?

A: Keno Pick 7 gives players frequent chances to play, with live draws every 3.5 minutes. Players also have 1 in 4.23 odds of winning any prize by matching 3 to 7 numbers, maximizing winning experiences.

Q: Can players choose their own numbers in a BC Pack?

A: No. BC Packs are Quick Pick Packages and are generated using Quick Pick selections.

Q: What makes the \$20 BC Pack a good value?

A: The \$20 BC Pack provides \$22 worth of lottery play for \$20, giving players added value while allowing them to try multiple BC-exclusive games.
