Draw Break is a time period from **7:25PM to 7:33PM** where a lottery draw is in progress and **lottery tickets cannot be sold**. Payment for the transaction must occur outside of Draw Break for tickets to print. Draw Break results in two outcomes:

- 1) **Before payment:** an electronic cash register **Error Message** will be shown upon sub-total. Cashiers should void lottery item(s).
- 2) **After payment: Ticket Purchase Error Slip. Important: Refund** the customer if a Ticket Purchase Error Slip prints instead of a lottery ticket after payment. **Destroy the Ticket Purchase Error Slip after processing the customer's refund.**

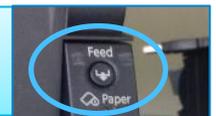

HOW TO

REPLACE TICKET STOCK IN THE LOTTO EXPRESS TERMINAL

- 1) Open the front cover of the ticket stock compartment by pressing down the grey button located on the right of the LXT.
- 2) Insert the new roll of ticket stock into the compartment. The BCLC logo should be on the left hand side.
- 3) Replace the plastic printer cover flap. When you close the door successfully, the LXT will cut the paper so it can be easily detached. Hold down the "Feed" button on the LXT to confirm the paper feeds through properly.
- 4) To remove excess paper, rip the paper by gently pulling down and to the left.

Tip: use the "Feed" button to clear away any paper jams.

Tip: At the beginning of your shift, ensure the LXT has enough **ticket stock**. When paper is low, an error message will display on the screen of your ECR. You will be unable to sell lottery until the lottery paper roll is replaced. **To order more ticket stock, call Lottery Support Hotline at 1.800.667.1649.**
